WHO IS ANNA KRAZY?

Anna Krazy is a circus artist originally from the Baltic country Estonia. She has now taken her street show "All Strings Attached" around the world! With experience in performance of 14 years, she started developing her street career in 2016 when she discovered professional busking and that's when Anna Krazy was born. Since then she's been developing a show and in 2019 she took "All Strings Attached" on an international tour! That's when she fully found her way on street and started performing this show at worldwide festivals.

Besides circus, she has studied theatre and dance, at the moment freelancing as a performing artist in many areas like:

- directing and featuring in contemporary circus and physical theatre plays,
- performing at events,
- festivals and productions,
- workshops
- and of course street festivals.

She is also raising a beautiful baby boy with his husband Chris Blaze which keeps her on her toes ;).

ANNA KRAZY STREETSHOW DESCRIPTION

"Dare to see something extraordinary ?"

"**All Strings Attached**" is a show that will make you **stop** and deeply think about the message this show offers, not only will you see incredible tricks of acrobatic and contortion, you will also be captured by the message of the show: "we are all habitants in a spider web, its up to us weather we'll be captured insects or spiders moving around freely."

Starting with moving around people with balls of string, she gives parts of the string to people and by doing that she creates a colourful web while dancing between the strings, manipulating them to create interesting geometry patterns to portrait connection between people, meanwhile having a heartfelt text/voice played in the background that Anna recorded herself about human connection, trust and love.

Mid show is where things get a little crazy, she lowers the strings as an act of breaking free, people become amazed when she bends as if she doesn't have bones in her unique and unbelievable contortion, handstand, dance and acrobatic act. This section is performed to "Way Down We Go" By Kaleo, the music and tricks create a powerful act that leave people stunned and in awe.

If you don't think that was crazy, she has an amazing finale still coming, using 8 volunteers she will do a trick that is very dangerous but portraits the way we should trust each other more. She stands 160m high and falls down back first, trusting the men to catch her. After doing the big hat speech Anna burst a big balloon with confetti and falls into the volunteer's hands. At this point everyone is going crazy with excitement and want to give Anna millions and millions of EUR/\$, And everybody lives happily ever after. The End. :)

THIS SHOW CAN BE PERFORMED IN MANY LANGUAGES! - English, German, French, Italian, Portuguese, Spanish, Swedish, Danish, Norwegian, Finnish, Latvian, Lithuanian, Polish etc. (surprise me!)

It's extreme contortion integrated with acrobatics and art!

It's a show that leaves people speechless and thinking about their lives and there connections between people.
